### **Easy DIY Flag Wreath Directions:**

- Note about fabric: Try to use at least a cotton fabric so that the tails will "stick out" when tied onto your wreath. A flimsy fabric won't lay correctly on the wreath. You can also cut your fabric as short as 20" but it's much easier to tie when it's 24" in length.
- The 1-1/2" measurement is approximately. Some of the pieces used in this tutorial were 2" wide.
- If you use a larger form, you will need more fabric.
  
- Cut your material into the following lengths and pieces:
  - 16 blue pieces of fabric, cut to 24" x 1-1/2"
  - 24 red pieces of fabric, cut to 24" x 1-1/2"
  - 24 white pieces of fabric, cut to 24" x 1-1/2"

- Paint [3 wooden craft stars](#) white. Allow to dry completely.
- Wrap 16 pieces of blue fabric around the [wreath form](#) by tying a slip knot. Simply Fold the piece of material in half top to bottom so that you make a loop and put it around the [wreath body](#) with the loop side down. Pull the other end down through the loop and pull it tight.
- Press each tied blue piece together as you go.
- Stop when you have 1/4 of the [wreath form](#) covered.
- Add red and white fabric to the [wreath form](#) using a slip knot.
- Alternate 3 red followed by 3 white, pressing pieces together as you go until the entire [wreath form](#) is covered.
- Flip over the [wreath form](#) and pull up on each piece of fabric, moving the knot forward and tightening it as you go.
- Trim the ends of the fabric if desired (the ends were trimmed for uniformity in this craft tutorial).
- Adhere your three painted, [3 white stars](#) on to the blue fabric section of your wreath with hot glue.
- Add a piece of string or hanging device to the back to hang.
- Hang where desired.
