- FolkArt, 2934 Licorice (black)
- Glue Gun
- Glue Sticks
- Multi-colored Craft Feathers
- Tea Lights (for decoration)

Turkey Wine Glass DIY Instructions

- Lay down a covering to protect your work surface.
- Paint the inside of your wineglass brown with your foam paintbrush.
- Allow to dry.
- Now paint the outside of your wine glass brown. Make sure you paint out all the overlapping marks.
- Allow to dry.

- Squirt a small amount of your white, yellow, orange, black, and red paint onto your paper plate or paint easel.
 - Use a smaller paint brush to paint two white circles or ovals for the eyes on the painted wine glass.
 - Below the eyes and centered (sorta) between them, paint a yellow triangle for a beak.
 - Then paint two feet below the beak using orange paint.
 - Allow everything to dry completely.
 - Once your paint is dry, paint a black circle onto each eye to form a pupil (it will now look like an eye).
 - Add a red squiggly line on the nose for the turkey's snood.
 - Allow to dry completely.
 - Once the glasses are dry you can begin hot gluing feathers on the backside of the turkey. Form an arch so it looks like a fan in back. Make certain the feathers do not touch the top of the wine glass.
-
- Top off with a tea light candle (flameless may be best due to the feathers) and set this cute little wine glass turkey in the middle of your table, on your fireplace mantel or an end table for a great Halloween decoration! Make a group of three in the same or in staggered height and set the trio among leaves, burlap, pinecones, etc for a sweet Thanksgiving centerpiece.
