

## [DIY BOO Pallet Project](#)

Instructions and photos on [AnnsEntitledLife.com](http://AnnsEntitledLife.com)

### **DIY Boo Pallet Project Materials:**

- Wood Pallet Board (this one measures 3.5" x 14")
- [4" Wood Letters](#) B O O
- [Black Acrylic Craft Paint](#)
- [Orange Acrylic Craft Paint](#) (Used on this project: [Folk Art Vivid Orange 2904E](#))
- Paint Brush
- [Glue Gun](#)
- [Glue Sticks](#)
- [Sanding Block](#) (if necessary)

### **DIY Boo Pallet Project Directions:**

- Use a sanding block to remove any rough edges on your pallet wood.
- Using black acrylic paint, paint the front of the pallet board.
- Let dry.
- Using orange paint, paint the letters, and the edges of the pallet board.
- Let dry.

Tip: Place paint material on wax paper to protect your surface and peel materials off easily, rather than newspaper that can stick to the pieces (it happens, see my [glitter shoes!](#))

- Using the cap of the acrylic paint, or a small bottle cap, dab into orange paint.
- Place circle shape onto the front of the black board to create a fun background.
- Let dry.
- Glue letters onto the pallet board with a hot glue gun and display for all to see – and for you to enjoy!
