- Remove your corks from the water, cut your corks in half and let them dry.
- Once your corks are dry, dip the rough end of your cork into your silver paint, just covering the tip.
- Now dip the same end of the cork, while paint-wet, into your glitter.
- Let your paint dry for several hours.
- Hot glue six (6) of the half-corks together in a circle, glitter side out.

- Next, glue two (2) half-corks off of each middle cork, glitter side out.
- Hot glue a piece of twine onto the back middle of your ornament for a hanger.
- Allow to cool, and now your ornament is ready to hang, or give as a gift!
