

[Make Your Own Snowman Window Cling](#)

Directions (and tutorial photos) found on [AnnsEntitledLife.com](#)

Snowman Window Cling Materials:

- [White Puffy Paint](#)
- [Black Puffy Paint](#)
- [Green Puffy Paint](#)
- [Orange Puffy Paint](#)
- [Brown Puffy Paint](#)
- [Pink Puffy Paint](#)

** **Note:** if you don't already own puffy paints, [this 20 pack](#) is a great price for a starter kit (and has all the colors needed for this project)

- [Snowman Cling Template](#)
- [Page Protector](#)
- 8 1/2" x 11" Paper
- Scissors

Snowman Window Cling Directions:

- Print out the [snowman cling template](#) using a color printer. Cut out the general shape.
- Insert a sheet of 8 1/2" x 11" sheet of paper into one of the page protectors
- Place your snowman picture into the page protector, on top of the whole sheet of paper.
- Begin tracing the snowman with the puffy paint.
- Begin at the top of the snowman and work your way down. Use the same color puffy paint as the color of the snowman on the template.
- Make certain your lines of paint are thick; it will make it a lot easier to peel off the snowman window cling later.
- If some of the areas are too small to paint around, just layer your puffy paint (ex: the snowman's smile).

- When finished, set your painted template somewhere where it will not be disturbed.
- Allow to dry for 24 hours.
- Once your snowman cling is dry, peel it off carefully.
- Your snowman cling is now ready for you to hang on your window or mirrors.

Warning: do not keep snowman on your windows for an extended period of time or during hot weather as they will be difficult to remove.
