

## [Spring Themed DIY Framed Dot Art](#)

Instructions and tutorial photos found on [AnnsEntitledLife.com](http://AnnsEntitledLife.com)

### **Spring Themed DIY Framed Dot Art Materials:**

- [Printable Chick and Bunny Pattern](#) Note: For this project shown the small bunny and chick were used. There are various sizes on this sheet for your to choose from.
- Paper, cut to size desired if necessary to fit your frames.
- [Metallic Sharpie Marker](#)
- Scissors
- [Utility Knife](#)
- [Cutting Board](#)
- [Picture Frames](#) (8"x10" and 5"x7" frames were used in this project shown)

### **Spring Themed DIY Framed Dot Art Directions:**

- Print out your [Printable Chick and Bunny Pattern](#).
- Use your scissors to trim the bunny and chick pattern. A [cutting board](#) and utility knife will be necessary to cut the chick.
- On a flat surface, place your bunny or chick cut out on a piece of solid, colored paper cut to fit your frame.
- Note: you can place a different colored patten behind your solid paper for contrast. If your frame is 8×10, use a 5×7 sheet of paper to do the dot artwork, and an 8×10 piece of paper behind that to slip in your frame. You can either line up the papers on top of one another, or a little dab of glue will hold the smaller paper in place against the larger paper. You can of course use a backer board too.
- Position your cut out as desired.
- Firmly hold down your cut out while dotting with the [Metallic Sharpie Marker](#) around the edges of the cut out.
- When you have finished dotting an outline around your bunny or chick, remove the cut-out-pattern and dot additional areas with your [Metallic Sharpie Marker](#) to your liking.
- Keep a concentration of dots near the edge of the pattern.
- Place your paper into your frame.
- Display on the wall, table top, mantel, etc.
