DIY Pineapple Candle Holder Directions:

- Squeeze a small puddle of bright yellow and dark green paint on a [small easel](#) or paper plate.
- With a #8 paint brush, paint the bowl and inside of your wine glass with [bright yellow paint](#) and let dry (use your hair dryer for quicker dry time).
- Paint the stem and base of your wine glass with your [dark green paint](#). • Allow to dry.
- Once your glass is dry, paint on a second coat of each color repeating the steps above.
- Allow to dry completely.
- Squeeze a small puddle of light yellow and bright green paint on a [small easel](#) or paper plate.
- Now use your [lighter yellow paint](#) to paint vertical stripes onto your bright yellow bowl to add a little dimension to the pineapple.
- Use your [bright green paint](#) to paint stripes onto your stem.
- Allow to dry.
- Squeeze a small puddle of black paint on a [small easel](#) or paper plate.
- Using [black paint](#) and a #2 paint brush, paint diagonal lines crisscrossing each other on the yellow globe of the wine glass over the dried yellow paints.
- Now use the end of your paint brush to dip in your black paint and in the center of each quadrilateral that was made with the black crisscrosses (basically a black dot in the middle of each quadrilateral).

- Allow to dry.
- Once your glass is dry, place a votive candle on the base of the wine glass and display.

This is one easy craft to make! Use more than one wine glass, staggering sizes and heights, to make a beautiful centerpiece you can display year-round. Two pineapple wine glasses would look great on a mantel. These are simply adorable, and definitely attract attention.
