- Use a smaller paint brush to paint on two eyes using white paint.
- Allow to dry.
- Paint a smaller black circle inside the white eye (these are down and to the right).

- Using a small pointed brush paint on a mouth using black paint.
- Allow to dry.
- Cut two sets of 14 strings of yarn about 3" in length.
- Tie the top of the orange sting into knots for the hair.
- Hot glue the knots to the top of the witch's head on either side of the stem.
- Now cut a small witch's hat from your black felt.
- Hot glue the small witch's hat to the top of the witch's head.
- Top off with a tea light candle and set this cute little wine glass witch in the middle of your table, on your fireplace mantel or an end table for a great Halloween decoration! Make a group of three... one purple face, one orange face and one green in staggered height and set the trio among leave, burlap, spider, etc for a truly sweet Halloween centerpiece.
