

[Make Your Own Peppermint Soap](#)

Instructions and Tutorial Photos found on AnnsEntitledLife.com

Peppermint Soap Ingredients:

- White Pour and Melt Soap Block
- Peppermint Essential Oil (or soap scent)
- Red Soap Coloring

Peppermint Soap Mise en Place:

- Rectangle Soap Molds
- Large Glass Measuring Cup
- Silicone or Wooden Spoon
- Rubbing Alcohol
- Scrapbook paper
- Red and white twine
- Scissors
- Hot Glue Gun
- Hot Glue

Peppermint Soap Directions:

- Cut 10 ice cube sized pieces off your soap block.
- Place cut soap base into a large measuring cup. Microwave for approximately 2 minutes or until melted.
- Add 8 drops of peppermint essential oil to the melted soap base; mix well.
- Carefully pour the liquid peppermint soap into a soap molds, filling about 7/8 way to the top.
- Add a two drops of red soap coloring (do NOT use food coloring) to the remaining liquid soap in the measuring cup; mix well.

- Pour the red soap base into the white soap already in the soap mold.
- Lightly spray the soap with rubbing alcohol to prevent bubbling.
- Carefully transfer filled soap molds onto a flat surface in the freezer.
- Freeze for 30 minutes.
- To remove the soaps: pull on the sides of the soap mold, and press on the bottom of the molds (each individual one) to remove your soaps.
- Cut a 3" x 8" piece of scrapbook paper, wrap it around the middle of your soap. Hot glue the bottom paper together to form a wrap.
- Cut a 12" piece of twine, wrap it around the paper, and tie into a bow.
- Perfect for display, gift giving, or to set in a linen closet to infuse with a peppermint scent!
