Yellow Chick Wineglass DIY Directions:

- Lay down a covering to protect your work surface.
- Paint the inside of your wineglass yellow with your paintbrush (you can use a foam paintbrush).
- Allow to dry.
- Paint the outside of your wineglass yellow with your paintbrush (you can use a foam paintbrush).
- Allow to dry.

- Turn your wineglass upside down.
- Paint two eyes using the black puffy paint toward the top center of the wineglass globe.
- Allow to dry.
- Fold a piece of orange felt in half.
- Cut a 1" wide triangle out on the folded edge so that when you open the cut felt piece it becomes a diamond shape.
- Carefully hot glue below the puffy painted eyes for the chick's beak.
- Now cut out two tiny circles from your pink felt and carefully hot glue one on each side of the beak for cheeks.
- Carefully hot glue several (three) yellow feathers onto the top of the chicks head, above the eyes.
- Glue one yellow feather on each side of the chicks face. (Glue one yellow feather on one side of the chicks face, glue a second yellow feather on the side of the opposite cheek.)
- Top off with a tea light candle **for looks only!** If you want to use a flameless tea light for this one to imitate a flame, that would look super cute! Due to the yellow feathers used in this project, an open flame is strongly discouraged!
